Allowable Subject Matter

Claims 1-5, 7, 8, 10 and 11 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose a flexible conduit structure comprising a first conduit section having a body portion with a corrugation; a second conduit section having a body portion with a plurality of corrugations, the first and second conduit sections interfitting and sealing with the one corrugation of the second section allowing relative rotation between the first and second conduit sections; a material dissimilar, intermediate layer position between the mating corrugations and not interactive with the mating corrugations; a coating of lubricant between the mating corrugations.

The Examiner recognizes that references cannot be arbitrarily combined and that there must be some reason why one skilled in the art would be motivated to make a proposed combination of primary and secondary references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
